

Moulting schedule

The moult lasts about 6 to 8 weeks and this is a very important period to prepare the pigeons for a successful racing season.

During the moult every week::

On the food:

3 times a week **HERBIAL** and **HERBO PROB**

2 times a week **OMEGA OIL** and **HERBO CONDITIEMIX**

In the drinking water:

1 week: **HERBOCHOL PLUS**

1 week: **HERBO AQUA CONTROL**

1 week: **SAMBUCUS**

Alternate this until the moult is done
